Title:

## Certificate of Analysis (CoA)

**Date:** 7/3/2026  
**Date Tested:** 7/1/2026  
**Customer:** Elite Level Peps  
**Testing material:** TB-500  
**Lot Number:** unspecified  
**BT Sample ID:** 005000040637793  
**Labeled Peptide Content/Potency:** 10 mg  
**Storage:** R.T.  
**Visual Description:** Small clear vial: white sample, black label, silver crimp, dark blue plastic cap.  
**Labeled as:** TB-500  
**Manufacturer:** Elite Level Peps  
**Testing Purpose:** FTIR and HPLC analysis for the identification, purity, potency and composition of a peptide product. It does not provide information on particulate matter, microbial contamination or presence of endotoxins.

| Test                                         | Method        | Specification                                                                  | Result                                                                                      |
|----------------------------------------------|---------------|--------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|
| General Appearance                           | USP<br><630>  | white powder                                                                   | white powder                                                                                |
| Mass                                         | USP<br><41>   | As recorded                                                                    | 66.6 mg                                                                                     |
| FTIR Identification and Composition Analysis | USP<br><197A> | Sample spectrum should confirm the content of peptide via characteristic bands | FTIR sample spectrum confirms the presence of TB-500 with addition of excipient(s)/fillers. |
| HPLC Purity of Peptide Assay                 | USP<br><621>  | Specifications: $\geq 98\%$                                                    | 99.7 %                                                                                      |
| HPLC Potency Assay                           | USP<br><621>  | Specifications: 90 – 110% of 10 mg                                             | 13.4 mg (133.9 %)                                                                           |
| Peptide-to-Excipients Ratio                  | USP<br><1151> | Recommended ratios of (1:2) to (1:10) for (peptide: excipients)                | 13.4 : 53.2 mg (1:4)                                                                        |

The results of the CoA relate only to the item(s) tested and applied to the sample as received.
